

Nebraska Workers' Compensation Court (NWCC) EDI Claims Release 3.1 Announcement

Initial processing of Electronic Data Interchange reports during transition to Claims Release 3.1

Date: 5/8/2019

On **May 15, 2019**, the Nebraska Workers' Compensation Court will transition its Electronic Data Interchange (EDI) system to Release 3.1. Effective as of that day, the court will no longer accept data using the Release 1.0 format. For approximately eight days on and after May 15, trading partners should expect a longer than usual time between transmission of data to the court and return of an acknowledgement from the court.

The court will receive and process all submitted reports using Release 3.1 format during the transition process. In order to ensure the long-term success of the transition to Release 3.1, additional analysis and testing of the system by the court will take place on and after May 15. Acknowledgements for reports submitted between May 15 and May 22 may not be available until May 23. The court will return acknowledgements in the usual form and manner once the court has confirmed the transition process has been successfully completed.

As part of this transition, the court reminds its EDI trading partners that suffix information (Jr., Sr., II, III, etc.) is no longer allowed in the Employee Last Name field (DN0043). Suffix information may be entered in the Employee Last name Suffix field (DN0255).

Claims Release 3.1 resources are available online at <https://nwccedi.info/>. Please note that ISO's Workers' Compensation Solutions division hosts this website and EDI trading partners may direct questions regarding Claims Release 3.1 to ISO at nwccedi@iso.com.

Questions? If you have any questions related to Nebraska's EDI Claims *Release 3.1*, please contact the Nebraska EDI Support Team at nwccedi@iso.com.
